PROFILE SUMMARY

Frontend Developer (ITI Graduate) specialized in building scalable React applications with optimized performance and state management. Built 5+ production-style projects including E-commerce, HR systems, and Desktop applications.

EDUCATION

Zagazig University <i>BSc Computer and Information Systems</i>	Zagazig, Egypt 2023 – Expected 2027
Information Technology Institute (ITI) <i>Web Development Using React JS (145 hrs)</i>	Completed Aug. 2025

PROJECTS

Business Incubator Platform <i>Frontend, Electron.js</i>	Jan. 2026 – Feb. 2026
- Engineered the frontend for a unified incubator management system. - Built an Electron desktop application interface for admins to manage resources, and a web interface for entrepreneurs, centralizing project tracking workflows.	
Nezuko HR – Job Portal Platform <i>React.js, React Query, Tailwind CSS, Zustand</i>	Dec. 2025 – Dec. 2025
- Developed the frontend of a job board, consuming RESTful APIs built by the backend team. - Implemented role-based access control interfaces enabling employers to manage job postings. - Engineered advanced client-side filtering for applicants and implemented robust state management using Zustand. - Integrated React Query to manage server state, implementing stale-while-revalidate caching and request debouncing to optimize API calls.	
Ketabak – E-Commerce Bookstore <i>Vanilla JS (ES6+), HTML5, CSS3</i>	Dec. 2025 – Dec. 2025
- Built a responsive frontend for a bookstore without relying on modern frameworks. - Engineered advanced client-side search, multi-criteria filtering, and pagination functionalities. - Designed highly interactive UI components, including simulated authentication flows.	
CV Creator Web Application <i>React.js</i>	Oct. 2025 – Oct. 2025
- Developed an interactive web tool that generates professional, ATS-friendly resumes. - Implemented a dynamic data-binding system that auto-populates user inputs into distinct templates, enabling seamless PDF exports with embedded hyperlinks.	
Rochetta – Online Pharmacy <i>React.js, RTK Query, Tailwind CSS</i>	Jul. 2025 – Aug. 2025
- Built a responsive e-commerce application featuring a dynamic product catalog and an optimized shopping cart system. - Integrated RTK Query for efficient data fetching, automated caching, and state synchronization. - Optimized application rendering and performance by implementing Code Splitting, Lazy Loading, and memoization techniques (useMemo, useCallback). - Conducted performance and accessibility audits, and executed image optimization strategies to significantly reduce load times.	

CERTIFICATIONS

Web Development Using React JS (145 hrs) <i>Information Technology Institute (ITI)</i>	Aug. 2025
Algorithm Analysis <i>Udemy</i>	Jul. 2025

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS
State Management & Data Fetching: Redux Toolkit, React Query, RTK Query, Zustand, Context API
Performance Optimization: Code Splitting, Lazy Loading, Memoization
Familiar With: Node.js, Express.js, Next.js, React Native, PostgreSQL, MongoDB
Tools & Practices: Git, GitHub, Jira, Agile/Scrum, API Integration, Responsive Web Design
